Forward Looking Statements

Statements in this presentation that are not historical facts are hereby identified as “forward-looking statements,” including any statements about our expectations, beliefs, plans, predictions, forecasts, objectives, assumptions or future events or performance. These statements are often, but not always, made through the use of words or phrases such as “anticipate,” “believes,” “can,” “could,” “may,” “predicts,” “potential,” “should,” “will,” “estimate,” “plans,” “projects,” “ongoing,” “expects,” “intends” and similar words or phrases. Accordingly, these statements are only predictions and involve estimates, known and unknown risks, assumptions and uncertainties that could cause actual results to differ materially from those expressed in them. We wish to caution you that our actual results could differ materially from those anticipated in such forward-looking statements as a result of several factors, including, but not limited to, the following:

- our inability to obtain additional capital on favorable terms, or at all, to acquire aircraft, service our debt obligations and refinance maturing debt obligations;
- increases in our cost of borrowing or changes in interest rates;
- our inability to generate sufficient returns on our aircraft investments through strategic acquisition and profitable leasing;
- the failure of an aircraft or engine manufacturer to meet their delivery obligations to us, including or as a result of technical or other difficulties with aircraft before or after delivery;
- the extent to which the Russian invasion of Ukraine and the impact of sanctions imposed by the United States, European Union, United Kingdom and others affect our business, including our efforts to pursue insurance claims to recover losses related to aircraft that remain in Russia, the exclusion of Russia, Ukraine and Belarus from the insurance policies that we separately purchase for our owned fleet, and the ability of our leases to comply with their obligations to maintain insurance policies that cover their operations;
- the extent to which the COVID-19 pandemic impacts our business;
- obsolescence of, or changes in overall demand for, our aircraft;
- changes in the value of, and lease rates for, our aircraft, including as a result of aircraft oversupply, manufacturer production levels, our leases’ failure to maintain our aircraft, rising inflation, appreciation of the U.S. Dollar, and other factors outside of our control;
- impaired financial condition and liquidity of our lessees, including due to lessee defaults and reorganizations, bankruptcies or similar proceedings;
- increased competition from other aircraft lessors;
- the failure by our lessees to adequately insure our aircraft or fulfill their contractual indemnity obligations to us;
- increased tariffs and other restrictions on trade;
- changes in the regulatory environment, including changes in tax laws and environmental regulations;
- other events affecting our business or the business of our lessees and aircraft manufacturers or their suppliers that are beyond our or their control, such as the threat or realization of epidemic diseases, natural disasters, terrorist attacks, war or armed hostilities between countries or non-state actors; and

We also refer you to the documents the Company files from time to time with the Securities and Exchange Commission (“SEC”), specifically the Company’s Annual Report on Form 10-K for ended December 31, 2021 and Quarterly Report on Form 10-Q for the quarters ended March 31, 2022 and June 30, 2022 which contain and identify important factors that could cause the actual results for the Company on a consolidated basis to differ materially from expectations and any subsequent documents the Company files with the SEC. All forward-looking statements are necessarily only estimates of future results, and there can be no assurance that actual results will not differ materially from expectations, and, therefore, you are cautioned not to place undue reliance on such statements. Further, any forward-looking statement speaks only as of the date on which it is made, and we do not intend and undertake no obligation to update any forward-looking information to reflect actual results or events or circumstances after the date on which the statement is made or to reflect the occurrence of unanticipated events. If any such risks or uncertainties develop, our business, results of operation and financial condition could be adversely affected.

The Company has an effective registration statement (including a prospectus) with the SEC. Before you invest in any offering of the Company’s securities, you should read the prospectus in that registration statement and other documents the Company has filed with the SEC for more complete information about the Company and any such offering. You may obtain copies of the Company’s most recent Annual Report on Form 10-K and the other documents it files with the SEC for free by visiting EDGAR on the SEC website at www.sec.gov. Alternatively, the Company will arrange to send such information if you request it by contacting Air Lease Corporation, General Counsel and Secretary, 2000 Avenue of the Stars, Suite 3000N, Los Angeles, California 90067, (310) 553-0555.

The Company routinely posts information that may be important to investors in the “Investors” section of the Company’s website at www.airleasecorp.com. Investors and potential investors are encouraged to consult the Company’s website regularly for important information about the Company. The information contained on, or that may be accessed through, the Company’s website is not incorporated by reference into, and is not a part of, this presentation.

In addition to financial results prepared in accordance with U.S. generally accepted accounting principles, or GAAP, this presentation contains certain non-GAAP financial measures. Management believes that in addition to using GAAP results in evaluating our business, it can also be useful to measure results using certain non-GAAP financial measures. Investors and potential investors are encouraged to review the reconciliation of non-GAAP financial measures with their most direct comparable GAAP financial results set forth in the Appendix section.
A Global Leader in Aircraft Leasing

Air Lease is a +$55 billion aircraft leasing platform

- **$28 Billion** Total Assets
- **481 Aircraft** Owned & Managed
- **430 Aircraft** On Order<sup>1</sup>
- **$31.3 Billion** Committed Rentals<sup>2</sup>
- **$7.6 Billion** Liquidity<sup>3</sup>
- **12.2%** Adjusted Pre-tax ROE<sup>4</sup>

- **96%** revenues generated from rentals associated with long-term lease agreements<sup>5</sup>
- ~**72%** fleet NBV to flag carriers or airlines with govt ownership<sup>6</sup>
- **99%** orderbook positions placed through 2023 on long-term leases
- **99%** Unsecured debt
- **92%** Fixed rate debt

---

<sup>1</sup>As of June 30, 2022 we had commitments to purchase 430 aircraft from Boeing and Airbus for delivery through 2028, with an estimated aggregate commitment of $27.6 billion. Includes $15.0 billion in contracted minimum rental payments on the aircraft in our existing fleet and $16.3 billion in minimum future rental payments related to aircraft which will be delivered during the remainder of 2022 through 2027.

<sup>2</sup>Includes $15.0 billion in contracted minimum rental payments on the aircraft in our existing fleet and $16.3 billion in minimum future rental payments related to aircraft which will be delivered during the remainder of 2022 through 2027.

<sup>3</sup>Available liquidity of $7.6 billion is comprised of unrestricted cash of $1.0 billion and an available borrowing capacity under our committed unsecured revolving credit facility of $6.6 billion as of June 30, 2022.

<sup>4</sup>Adjusted Pre-Tax Return on Common Equity is calculated as the trailing twelve month Adjusted Net Income Before Income Taxes divided by average common shareholders’ equity. Adjusted Pre-Tax Return on Common Equity and Adjusted Net Income Before Income Taxes are non-GAAP financial measures. See appendix for a reconciliation to their most directly comparable GAAP measure.

<sup>5</sup>Trailing twelve months revenue as of June 30, 2022.

<sup>6</sup>Includes any form of government ownership; however, this does not guarantee our ability to collect contractual rent payments.
What is on the Horizon for the Airline Industry

Traffic Recovery Continues to Strengthen
*International Traffic RPKs have grown significantly so far in 3Q22 vs 3Q21*

Consumer’s Pent-Up Demand
*64% of travelers plan to spend more on international travel in 2022 vs 2021*

Operational Constrains Slowing Growth
*Aviation industry lost 2.3m jobs globally during the pandemic*

Highly Aspirational OEM Production Rates
*OEMs target building 100+ narrowbodies a month*

Emergence of New Technologies
*New technology is likely still many years away*

Decreasing travel restrictions in APAC strengthening international traffic recovery

Source: IATA Air Passenger Market Analysis, July 2022
The Recovery in Global Air Traffic Continues

International Traffic Recovery Supporting Widebody Demand

“I am further strengthening and modernizing our fleets with some 50 new Airbus A350, Boeing 787 and Boeing 777-9 long-haul aircraft...”

“Demand has bounced back quicker than anticipated, we knew it was time to bring these 777-300ER aircraft back from Victorville”

“The A350-1000 is the best fit for our dense routes, and we believe that the upsizing will be instrumental in satisfying the increasing demand of customers in our vast global network across five continents”

Airlines’ changing tone on widebody demand

---

Secular Tailwinds Remain in Place to Drive Further Air Travel Demand - Lessors to Benefit

- Growing Middle Class
- Airfare Affordability Continues to Drive Demand
- Experiences vs. Goods Consumer Spending Habits
- Lease Demand Increasing
Industry Challenges Constraining Growth

Significant Airline Delays and Cancellations in Summer 2022 – Whole Industry Behind the Curve

✓ Spike in European and UK cancelations in July 2022 – 5-10%+ of flights cancelled for some airlines¹

✓ Enroute ATFM delays in Europe have routinely exceeded 40,000 minutes per week since late May 2022 vs < 5,000 per week prior to April 2022²

✓ US DOT reports 24% of all flights delayed, 3% cancelled in 1H 2022³

Cancelations remain above pre-pandemic levels

US Flight Cancelations⁴

- OEM joint campaigns
- Strategic advisory / restructuring
- Financing
- Airline fleet modernization projects
ALC Key Summary Highlights

**Experience**
Average ~30 Years of aviation industry experience among senior management

**Scale**
$55 billion+ leasing platform

**Asset Strategy**
Strategy focuses on young, liquid aircraft types

**Clean Capital Structure**
$26.3 billion of unencumbered assets

**Liquidity**
$7.6 billion (cash & undrawn revolver)

**Ratings**
Investment Grade (S&P: BBB / Fitch: BBB / Kroll: A-)

**Diversification**
116 Airlines / 62 Countries. Avg. customer concentration is ~1.0% of NBV

**Strong Customer Base**
~72% of fleet with airlines that have some form of government support

---

All information as of June 30, 2022. ¹$55 billion leasing platform consists of $27.6 billion in assets, $27.6 billion in commitments to acquire aircraft, in addition to managed aircraft.
